ABOUT THE PROJECT

README.md

UTF-8 Markdown

Independence Day Wishing Website is a personal, vibe-coded greeting page made to wish a happy Independence Day online. It solves the need for a more memorable greeting than a plain text message by turning the wish into an interactive digital card, styled as a royal tricolor invitation for the 79th Independence Day. Main features include a sealed scroll that opens when the seal is clicked, a national anthem audio player, an English and Hindi language toggle, and name personalization with sharing.
